

# Krishna

Co-Founder & Scientific Consultant

Expertise in medicinal, organic, and analytical chemistry.

Specializes in drug synthesis, analytical method development, and characterization (LC-MS, GC-MS, HPLC, NMR).

Supporting translational drug discovery from concept to execution.

# Rajni

Co-Founder & Scientific Consultant

Expertise in computational chemistry, biochemistry, and molecular modeling.

Specializes in CADD, AI/ML-assisted drug discovery, and simulation workflows.

Skilled in cheminformatics, data analysis, and cheminformatics databases.

Knowledge in bimolecular physics and molecular interactions.

Experienced in scientific writing, technical documentation, reports, and publications.

Driving data-driven and mechanism-based strategies for modern therapeutic development.
